## PFP – Polytechnic Foundation Programme

PFP is a one-year programme that offers a practice-oriented curriculum taught by polytechnic lecturers to better prepare polytechnic-bound Secondary 4N(A) students for entry into a polytechnic diploma.

Starting from the AY2026 PFP intake, students will be admitted into a PFP cluster, and progress to one of the diplomas within the cluster after completing the one-year programme.

The exceptions are Diploma in Nursing, Diploma in Early Childhood Development & Education, and Diploma in Tamil Studies with Early Education, for which students can be admitted either via the diploma-specific PFP or the relevant PFP cluster.

**PFP:** [go.gov.sg/pfp](https://go.gov.sg/pfp)

## DPP – Direct-Entry-Scheme to Polytechnic Programme

DPP allows Secondary 4N(A) students to be admitted directly into selected 2-year Higher Nitec courses at ITE without having to sit for the O-Level examinations. DPP students who successfully complete their Higher Nitec courses at ITE and attain the required qualifying Grade Point Average (GPA) scores are guaranteed a place in a polytechnic diploma course mapped to their Higher Nitec course.

**DPP:** [go.gov.sg/applydpp](https://go.gov.sg/applydpp)

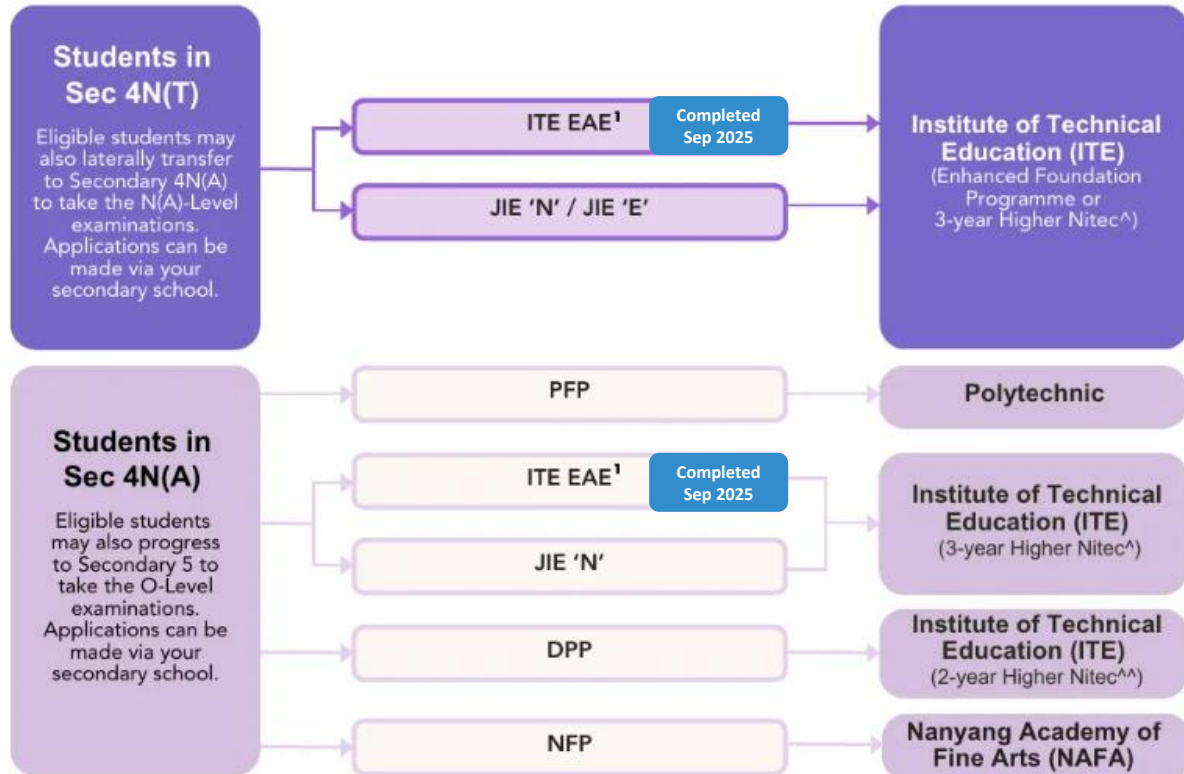

## NFP – NAFA Foundation Programme

The NFP is a one-year practice-based programme that prepares Secondary 4N(A) students to pursue a diploma in the creative arts. NFP students who successfully complete the programme will be offered a place in their chosen diploma course at NAFA.

A bouquet of pink cherry blossoms is positioned on the left side of the frame. A single green leaf with serrated edges is visible among the flowers. A brown paper tag, shaped like a rectangle with a pointed left side, is placed diagonally across the center. The tag has a small hole on its left side, through which a piece of light-colored twine is threaded. The tag is secured to the bouquet by a small, circular, reddish-brown fastener. The background is a rustic, weathered wooden surface with visible grain and texture. Several pink petals are scattered on the wood, particularly on the right side.
